

## CLASSIC SERIES

**COLD WATER ► GAS POWERED ► DIRECT DRIVE**

- **Reliable Honda Engine**
- **Commercial-Quality Kärcher Axial Pump with Brass Head**
- **Reinforced Upright Steel Frame**
- **Commercial Warranty**
- **Unmatched Value**

Reliable Honda engine with two-year warranty, low-oil alert and silent-tone muffler; 9 and 13 HP models have an EZ-start valve for resistance-free pull starting of engine

Three-piston, direct-drive Kärcher axial pump with unique swash-plate design has fewer moving parts for a highly efficient, smooth and quiet operation; brass cylinder head ensures extra durability and extended life

Rugged steel frame and power platform, with easy-to-manuever handtruck design, is painted with a black, wrinkle-coat finish for all-weather protection

Thermal pump protector keeps the pump from overheating by venting recirculated water

10" tubed pneumatic tires for easy maneuvering on all terrains and to absorb vibration; front-mounted rubber feet also absorb vibration and keep the unit from "walking" during operation

This series of commercial-duty, gas-powered cold water pressure washers offers the ideal balance between professional performance and value. Powered by reliable Honda engines, all four models feature Kärcher's German-engineered, direct-drive, commercial axial pump, with 5-year warranty. Swash-plate design has fewer moving parts than traditional pumps for smoother, quieter operation and longer life. The rugged steel frame, with its handtruck design and tubed pneumatic tires, is extra-easy to handle and is painted with an all-weather wrinkle coat. As an added bonus, the 9 and 13 HP models come standard with a 100' hose reel.

Insulated, stainless steel high-pressure wand with quick-couple connectors for easy attachment of high-pressure nozzles

Five conveniently mounted, quick-couple spray nozzles for varying fan spray to adapt to a broad array of cleaning applications

Inlet strainer protects pump from debris in the water source

Conveniently located gun and hose holder

Insulated trigger gun for hours of fatigue-free cleaning

Easy-to-attach downstream detergent injector with brass soap nozzle

50 feet of anti-kink, wire-braided, commercial-duty, long life hose

Top-mounted 100' hose reel (comes standard on 9 and 13 HP models) simplifies clean up and reduces risk of high-pressure hose being run over and damaged

Dimensions: 22"L x 23"W x 35"H  
42"H with hose reel
